

WbFurnitureShop wordpress template install intructions

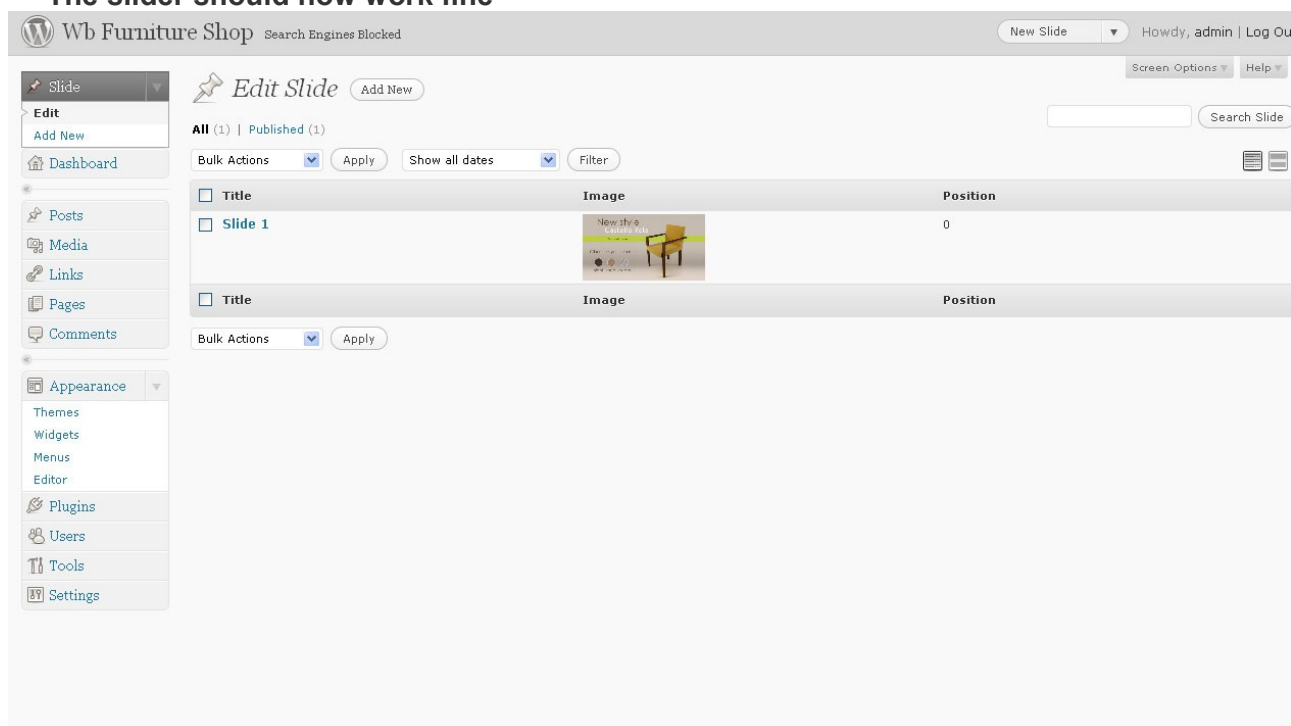

Theme installation

1. **download and install wordpress 3,0 (download free at wordpress.org)**
2. **buy our theme from webmasterbulletin.net/shop :**
once payment has been validated by paypal you get instant access to your webmasterbulletin shop account with download instructions for your premium wordpress theme
3. **download and unzip to your wordpress wp-content/themes folder**
4. **go to wordpress admin and activate your theme**
5. **check that the theme is working by viewing the site**

Content and developement

Once your theme is installed and working, you can start typing content and images using wordpress admin and our specific admin features

1. **HOMEPAGE Slider :**
the jquery slider works on modern browsers and requires at least 3 images.
Go the « Slide » and add 3 posts , dont forget to specify the featured image in each post
The slider should now work fine

2. **PRODUCTS**
to add products, simply create posts, including featured image for each post
Latests posts should now appear at the bottom of each page

Developers : you can customize the number and category of posts displayed at the bottom of each page using query_posts options in includes/products.php.

Find more details about query_posts options and function reference :
http://codex.wordpress.org/Function_Reference/query_posts

3. **SIDEBAR and FOOTER**

Our theme uses widget to display sidebar and footer on the website.

Go to the widgets in Appearance menu and fill in **specific template areas with text widget content**

The screenshot displays the WordPress dashboard's 'Appearance' > 'Widgets' page. On the left, a sidebar menu shows 'Appearance' expanded to 'Widgets'. The main area is divided into 'Available Widgets' and 'Inactive Widgets'. The 'Available Widgets' section contains 14 widget categories, each with a brief description. The 'Text' widget is highlighted, and its configuration window is open, showing a title field and a text area containing 'My Furniture Shop.' and 'DownTown St - New York - USA'. The 'Left Sidebar' and 'Footer' areas are visible on the right, with the 'Text' widget already placed in the sidebar.

4. **COMPANY INFORMATION**

Build content pages to talk about your company or yourself

5. **TOP MENU**

get back to appearance and use the menu function to build the top menu
